I am an experienced multimedia designer whose knowledge can make a major contribution to your organization. I am seeking a challenging position that will offer continued opportunity to develop further my knowledge and skills as a multimedia designer.

With a track record of experience in the design field, I am exploring opportunities to utilize my creative multimedia design skills and contribute to your company's growth and expansion.

With the emphasis on media in our society today, creative design can communicate an empowering message that translates into increased business or achievement of organized goals.

As you note from my resume my experience goes beyond any one aspect of the multimedia field. Using a variety of art media I've worked in all phases of production, development, and design in the field. This versatility is reflected in my on-line portfolio.

Thank you for your time and full consideration. I look forward to hearing from you in the near future.

Sincerely,

Mackenzie England
